

ATTACHMENT # 5

TARP MANAGEMENT PLAN

DURING THE FUMIGATION INJECTION THE TARP WILL BE REPAIRED BY:

- 9 The Pest Control Business name: _____
- 9 The grower and the grower's employees name: _____

AFTER THE PEST CONTROL BUSINESS HAS FINISHED THE APPLICATION AND LEFT THE FIELD, THE FIELD WILL BE MONITORED FOR DAMAGE BY:

- 9 The Pest Control Business name: _____
- 9 The grower and the grower's employees name: _____

HOW OFTEN WILL THE FIELD WILL BE MONITORED FOR DAMAGE DURING :

During the first 24 Hours:

- 9 hourly
- 9 every two hours
- 9 every four hours
- 9 every six hours
- 9 other _____

After 24 Hours:

- 9 hourly
- 9 every two hours
- 9 every four hours
- 9 every six hours
- 9 other _____

DECISIONS FOR REPAIRING THE TARP WILL BE BASED ON THE HAZARD TO THE PUBLIC, RESIDENTS OR WORKERS, THE PROXIMITY TO OCCUPIED STRUCTURES, THE SIZE OF THE DAMAGED AREA, THE TIMING OF THE DAMAGE, THE FEASIBILITY OF REPAIR, AND ENVIRONMENTAL FACTORS SUCH AS WIND SPEED AND DIRECTION.

THE FOLLOWING SPECIFIC CRITERIA HAVE BEEN ESTABLISHED:

1. DURING THE FIRST 24 HOURS OF FUMIGATION, ANY HOLE OR TEAR IN THE TARP THAT IS LARGER THAN 6 INCHES, AND IS WITHIN 100 FEET OF A PROPERTY CONTAINING AN OCCUPIED RESIDENCE, WILL BE REPAIRED.
2. AFTER THE FIRST 24 HOURS, ANY DAMAGE LARGER THAN 6 FEET WILL BE REPAIRED.

3. OTHER DAMAGE WILL BE EVALUATED AND REPAIRED AS NEEDED.

THE PLAN FOR REPAIRING THE TARP IS:

- 9 If the pest control business is designated to repair the tarp, call the pest control business at this phone number _____.
- A certified applicator from the pest control business will test the ambient air in the damaged area while wearing an SCBA, in order to determine if the damage can be repaired by someone without wearing an SCBA. If the concentration in the damaged area is less than 5 ppm, the repairs can be made without wearing an SCBA. Repairs will be made by: _____.
- 9 Some other plan: _____.

TARP CUTTING AND REMOVAL PLAN

THE TARP WILL BE CUT AND REMOVED BY:

- 9 A tarp removal company. Name of company: _____.
- 9 The grower and the grower's employees.
The following equipment will be used, for broadcast fumigations, for cutting the tarps (either an all-terrain vehicle or a tractor with a cutting wheel. The tarps cannot be cut by hand):

_____.
